

# JOINT DEGREES PROGRAM FORM FOR CURRENT STUDENTS

This form is to be used by students who have been admitted and are already registered in one Regent school, and who are seeking permission to enter a joint degrees program. Students are not considered joint until they have been accepted by the secondary school. Students should ordinarily seek admission to a joint degrees program before the completion of one-third of any single degree program. International students must also obtain approval from the manager of the International Student Office.
